**Subject: 2021 Environment Awards – Solar Energy Project**

Dear Mr. Creel and Mr. Hudon,

We are pleased to advise that CP's *Solar Energy Project* has been selected for the 2021 Environment Award of the North American Class 1 freight category.

The Railway Association of Canada's (RAC) Evaluation Committee scored your initiative using a weighted evaluation system and concluded that it merited an award for its reduction in greenhouse gas (GHG) emissions while innovatively repurposing existing land assets to incorporate renewable solar energy into facility operations.

We thank CP for participating in this year's 2021 Environment Awards and for your continued commitment to develop and maintain industry best practices toward the environment and we congratulate you on this important recognition from your peers in the industry.

Due to the ongoing pandemic, we cannot meet in person this year, however, the RAC will be reaching out to you in the coming weeks to interview your company on its initiative. We want to highlight each submission in a video that will be on social media and the RAC website.

Wishing you and all your respective families a safe and Happy Thanksgiving.

Sincerely,

Marc Brazeau  
President and Chief Executive Officer
